The Empress Shoe Needs No Breaking In

An ill-fitting shoe won't fit by stamping your foot into it.

The Empress Shoes fit so well that you put your foot into it easily—and you can wear it right away.

A shoe that must be "broken in" is wrong in construction, or it doesn't fit you. Perhaps you have broken up your poor feet by "breaking in" such bad shoes. Get the shoe that is made on the lines of your natural foot and you won't have to "break it in" or stuff it out with cotton, or build it up with insoles.

Empress Shoes need no "breaking in." They fit and they are just as stylish as the latest fashion requires.

AROUND THE TOWN

H. E. Wiegand is a business visitor at Medicine Hat.

Miss Mabel Green was a business visitor to Calgary last week.

A. F. Maley of Hannah, Alta., was a business visitor in town on Monday.

Miss Eva Sexsmith and Miss L. McMurchy were visitors at Calgary on Saturday.

R. B. Martin, who has been living in California through the winter, has again returned to Banff.

Liberal Committee rooms have been opened in J. E. Stauffer's business office in the Liesemer block on Osler street.

Mrs. Walter Geddes of Calgary came up on Saturday for a short visit to her parents, Mr. and Mrs. M. Bricker.

Mayor H. B. Atkins was elected a director of the Alberta Fairs Association at the meeting held in Edmonton last week.

Alex. Van Swelm of Calgary came to Didsbury last week and has accepted a position with Norman Weicker in his butcher shop.

J. F. Friesen left for Calgary on Saturday to take a position with Cushing Bros. of that city. Mr. Friesen will leave his family in town for a time.

There will be a meeting of the Council of the Rural Municipality of Mountain View No. 310 at Peter G. Johnston's house on Saturday, March 1st, 1913, at 11 a. m.

Mrs. M. E. Alden and Mr. E. Alden of Red Oak, Iowa, and Mr. H. Alden of Calgary, mother and brothers of Mr. G. A. Alden, arrived here on Monday. Mrs. Alden and son Edwin will likely spend the summer here with her son George.

German reform services will be held in the Presbyterian church, Didsbury, on Thursday, March 6th, at 7 p. m. Rev. L. P. Goerrig of Calgary will conduct the services. All German speaking people are invited to be present.

John Haug of Bergen returned from his visit to Norway last week. Mr. Haug states that living expenses have increased enormously in the last few years in Norway and that it is almost as expensive to live there as it is in Sunny Alberta.

An open meeting of the W. C. T. U. will be held in the evangelical church on Monday afternoon, March 3rd, in memory of Francis Willard. A debate will also be held; resolved "That in the sight of justice the man who votes for the liquor traffic is just as guilty as the manufacturer or the man who sells it." Music will be provided and all are invited to attend.

The many friends of Mrs. Henry McColm, who is suffering from results of a mishap which occurred about two weeks ago, when she fell down the cellar steps, will be sorry to hear that she is still very poorly and is now under Dr. Reid's care. Because of her age and poor health

DOGS ACT AS POLICE

Special Guardians of the Night Formed in Paris for Protection of Property

Paris, France.—A series of burglaries in the center of Paris has led to the creation of a special force of private police, or night guards, who begin their duties this week. Their special attentions are directed to guarding the property of citizens who have subscribed toward the Night Guards' Association.

Last night a reporter for a morning newspaper accompanied an inspector on his rounds of the Avenue de l'Opera and the adjacent streets, which are patrolled by a dozen stalwart guards in a blue uniform with a quaint helmet. Each guard had a police dog and a heavy automatic pistol. The inspector had with him a magnificent black German shepherd dog, which was muzzled and held on leash.

All the dogs, the officer explained, had been specially trained for their work. Just lay a hand on me and see what the dog will do, said a guard. The reporter gave him a hearty blow in the chest. With a low growl the great black dog at his side sprang at the newspaperman's throat. His master pulled him off.

The scheme is in its infancy, but it is hoped before long to establish patrols in the residential districts of Paris. Subscribers may get a guard at night to summon a doctor or a cab.

WHEN BABY IS ILL.

When the baby is ill; when his little stomach is out of order and he is cross and refuses to smile, don't dose him with castor oil. There is no need to torture him—give Baby's Own Tablets—they do everything castor oil is supposed to do, only they do it better, and what is more the baby will like them. The Tablets are absolutely safe, being guaranteed by a government analyst to contain no opiates or other harmful drugs. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

What's the Use?

Though he is himself, in private life, a clerkman, George Birmingham, the Irish novelist, loves a good story on the clergy, and one of the most amusing sections in his new book, *The Lighter Side of Irish Life*, deals with the foibles and misadventures of Irish pastors. One of his tales may be quoted:

A north of Ireland gentleman heard from the lips of a clergyman of the death of an inveterate enemy of his who harassed him for many years.

Well, he said, it's a comfort to think that the devil's got that fellow at last. The clergyman, being a clergyman, felt bound to protest against this uncharitable view of the dead man's condition. He insinuated a hope that, in spite of all that had passed, the poor man might have escaped the extreme penalty.

Well, said the other, if the devil hasn't got that fellow, all I can say is that I don't see much use in our keeping a devil at all.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting through their action in an unsound stomach, but this is only a manifestation of their cleansing power, no indication that they are hurtful. They can be thoroughly depended upon to clear all worms from the system.

Artie had tried by various means to interest his father in conversation. Can't you see I'm trying to read? said the exasperated parent. Now, don't bother me.

Artie was silent almost a minute. Then, reflectively: Awful accident on a Bloomfield trolley today.

Father looked up with interest. What's that? he asked. An accident? Yes, replied Artie, edging toward the door, a woman had her eye on a seat and a man sat on it.

I got kind of suspicious and it certainly puzzled me till a New York drummer put me wise, telling me they were tuberculosis stamps. Of course, I knew that stuff was darned bad, so I just up and confiscated the mail as fast as I came in. I've got it all out in the back room fumigating now. Pretty narrow squeeze, but I nipped the epidemic right in the bud.

Pat was standing near the car track when he noticed an automobile coming up the street, and to be safe he stepped back a little from the car track. The auto went past and just as it was passing the driver had occasion to turn off he track. When he did the auto skidded on the car track causing the back end of it to swing around, striking Pat and knocking him down.

Pat was seen to get up and look after the car and say: Now that do ye think o' that? When ye stand in front o' them, they run over ye; and when ye get out o' the way to let them pass they turn round and kick ye!

WHAT FOLLOWED A CUT

A Magistrate's Wonderful Experience With Zam-Buk

Mr. J. E. Arsenault, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Ry., has had a wonderful proof of the healing power of Zam-Buk. He says:

"Four years ago I had an accident. I slipped in the station and fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and lay up.

After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse.

"This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did.

It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema or any trace of it."

Such is the nature of the great cures which Zam-Buk is daily effecting. Purely herbal in composition, this great balm is a sure cure for all skin diseases, cold sores, chapped hands, frost bite, ulcers, blood-poisoning, varicose sores, piles, scalp sores, ringworm, inflamed patches, cuts, burns, and bruises. All druggists and stores sell at 50c. box or post free from Zam-Buk Co., Toronto, upon receipt of price.

A story of Scotch honesty comes from Dundee. A small boy had taken the prize for an exceptionally well drawn map. After the examination the teacher, a little doubtfully, asked the lad:

No, sir, he did it all.

A Boon for the Bilious.—The liver is a very sensitive organ and easily deranged. When this occurs there is undue secretion of bile and the acid liquid flows into the stomach and sours it. It is a most distressing ailment, and many are prone to it. In this condition a man finds the best remedy in Parmelee's Vegetable Pills, which are warranted to speedily correct the disorder. There is no better medicine in the entire list of pill preparations.

A Kansas City character was clinging to a lamp-post one Sunday morning when a stranger came along and addressed him.

FRENCH TOWN EXCITED

Woman Asserts That Statue of Virgin in Cemetery Came to Life

Paris, France.—The town of Besiers is immensely excited by a remarkable story, which is said to have occurred in the old cemetery in the town recently. Nothing will convince the superstitious people that it is not true.

According to the story, which is printed with much detail, a woman was leaving the cemetery, where she had gone to pray at the grave of her husband, when she noticed a statue of the Virgin covered with moss. The condition of the statue inspired her with pity and she tried to wash the moss from it with her pocket handkerchief. She declares that the statue came to life; that one of its hands touched the handkerchief and that a voice said: This cloth is sacred now. Keep it, for I have blessed it to thank you for your act of piety.

The woman ran home to her cottage and told her sick daughter what had happened. She put the handkerchief on the girl's bed, and the child, who has been paralyzed for several years, sat up, got out of bed and walked.

The statue is surrounded all day by cripples, blind men and women, and even children who are suffering from some disease. It was reported among the townspeople that a blind man recovered his sight and that a lame man had thrown away his crutches and walked.

A number of unbelievers visited the cemetery and openly expressed their scepticism. They were roughly handled by the worshippers and ejected.

A number of women have organized a perpetual guard round the statue, and one of them collected money from visitors whose handkerchiefs she rubbed on the hands of the statue. This was forbidden by the police, whereupon several gendarmes were attacked by the angry women. The leader of the women who tried to induce her companions to precipitate a riot is now forbidden to enter the cemetery.

The bishop and clergy have thus far refrained from expressing any opinion regarding the alleged miracle.

A WINTER COAT

not only keeps cold out, but conserves body-warmth; body-fat serves the same purpose, it enables us to resist unsettled elements and serves as the great source of our body-heat. Greater body-warmth means richer blood, more fat, not obesity but fat which the body consumes for warmth, vitality, resistance-power—as a furnace consumes coal for heat—Scott's Emulsion does this.

A teaspoonful after each meal makes body-warmth—healthy, active blood—sharpens the appetite and makes all good food do good.

It drives out and keeps out colds by raising endurance-power and creating strength.

The Easy Laxative

In justice to yourself you should try Rexall Orderlies,---your
money back if you don't like them. They are a candy con-
fection that really do give easy relief from constipation.

Good health is largely dependent
upon the bowels. When they become
sluggish the waste material that is
thrown off by the system accumu-
lates. This condition generates
poisons which circulate throughout
the body, leading to coated
tongue, bad breath, headache, dull
brain action, nervousness, biliousness
and other annoyances.

Avoid harsh cathartics and physics.
They give but temporary relief.
They often aggravate the real trouble.
They are particularly bad for chil-
dren, delicate or aged persons.

Rexall Orderlies

Come in tablet form, taste just like
candy and are noted for their easy,
soothing action upon the bowels.
They don't purge, gripe, cause
nausea, looseness, nor the inconven-
iences attendant upon the use of
purgatives. Their action is so pleas-
ant that the taking of Rexall Order-
lies almost becomes a desire instead
of a duty.

Children like Rexall Orderlies.
They are ideal for aged or delicate

persons as well as for the most robust.
They act toward relieving constipa-
tion, and also to overcome its cause
and to make unnecessary the fre-
quent use of laxatives. They serve
to tone and strengthen the nerves
and muscles of the bowels and asso-
ciate organs or glands.

Make Us Prove It

We guarantee to refund every
penny paid us for Rexall Orderlies if
they do not give entire satisfaction.
We ask no promises and we in no
way obligate you. Your mere word
is sufficient for us to promptly and
cheerfully refund the money.

Doesn't that prove that Rexall
Orderlies must be right? You must
know we would not dare make such
a promise unless we were positively
certain that Rexall Orderlies will do
all we claim for them. There is no
money risk attached to a trial of
Rexall Orderlies, and in justice to
yourself, you should not hesitate to
test them.

Rexall Orderlies come in conven-
ient vest-pocket size tin boxes. 12
tablets, 10c; 36 tablets, 25c; 80
tablets, 50c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug
stores. You can buy Rexall Orderlies only at the Rexall Stores.

It is noticeable in a great many places around town that the
sidewalks have not been kept clear of snow and consequently when
a soft spell comes these sidewalks are not fit to walk on, and then
when it freezes up again they are dangerous to life and limb. No
doubt the matter only needs mentioning to those living in town and
as far as they are concerned it will be attended to, but the town
Council, or whoever is responsible to them, should see that the side-
walks abutting on property owned by people living out of town is
cleared of snow and the cost charged against the property as the
by-law calls for. If there is snow on your sidewalk, the first
chance you have when the weather becomes milder clean it off and
help to make the town look that much cleaner and safer.

COMPLAINTS are being made in east Didsbury that pigs are
being kept within a short distance of dwelling houses. Perhaps
these parties do not know that they are breaking the health laws
and that they are liable to a fine of \$50 or two months in jail. This
matter has been brought before the attention of the proper author-
ities and no doubt will be looked after. It is to be hoped that
every person in the town will make arrangements just as soon as
the warmer weather comes to have their manure piles
and back yards cleaned up for their own as well as for their neigh-
bor's good. Any of us would feel extremely bad this spring if
through our negligence in this matter an epidemic of fevers was to
break out and cause untold sorrow and a great expense through the
filthy state of laneways and back yards. We are all responsible to
a great extent for the health of the town, and it is up to us to see
that no serious trouble is caused by our negligence.

An Interesting Trip

The following interesting letter was
sent to us lately, and as a great many
of our readers know the gentleman
who wrote it, we take the liberty of
publishing it. From Didsbury Mr.
Wright went to Vancouver and from
there took passage for New Zealand,
from which place Mr. Wright de-
scribes his trip home to England.

Belle Vue, Kingston by Sea,
Sussex, Eng.

Dear Mr. Osmond:

Well, Sir, I guess I've had a pretty
good spin 'round after I left Dids-
bury, and I'm very much afraid I
don't know very much now. After
reaching New Zealand I was a bit un-
decided whether to go home via
Suez or Cape Horn. Having had,
from 1876 to 1879, experiences of the
Cape of Good Hope and Suez canal
route, I thought I might as well ex-
perience the "dreaded" Cape Horn
route. As you know it is invariably
pretty rough around those quarters,
so, being a pretty good sailor myself,
I thought I'd just chance the ducks
and go that way. Our ship, the S. S.
Nairnshire of the Federal Holder line,
was a 10,000 ton cargo boat, gener-
ally known as a cargo or "tramp"
boat. We started from Littleton on
the 30th of July, 1912, and reached
Avonmouth, Eng., on Sept. 18th,
1912, making 52 days of it.

Here I give a little problem for your
son to solve. Of course it is easy
enough for you, but let him find it out
himself. When I started from Van-
couver on May 15, 1912, we steered a
south by west course. On the 30th of
May we came to the 180 W. degree of
longitude. Next day, after passing
the 180th degree, we skipped the 31st
of May and began the 1st of June, so
that I lost a day of my existence in
May, 1912. That of course is clear to
you. Now, then, on our way from
Lyttleton to Cape Horn we had July
30, July 31, August 1, August 2,
August 3, and so on, but note, we had
two days of August 1st. Let him see

how that was. It is of course quite
clear, as we come from the 180th de-
gree east to the 180th degree west, so
to get the east of Greenwich and the
west of Greenwich times we had to
have two firsts of August. It will
amuse him by looking up his map of
the world to prove my words.

On the morning of our leaving New
Zealand the Lyttleton Times news-
paper was bought and a list of the
cargo of our ship was therein pub-
lished, a copy of which herewith
please find enclosed. I showed it to
our chief officer on our way home and
he said it was perfectly correct, and,
to make the storage capacity more
amazing he said they had 24,000 feet
spare room for cargo, but could not
get it, so, not to let the ship go away
partly loaded, the captain took in an
extra quantity of coal to save having
to coal at Monte Video.

From New Zealand we went right
up to Las Palamos, the chief town of
the Grand Canary Isles, but, owing to
a coal strike there among the Span-
iards we could not get any. The
captain then wired on to Maderia
(Funchau) and there he thought 300
tons would be enough to run him
home, but no, he either had to have
500 tons or none at all, as the Portu-
guese, being a bit stomachy, said if
only 300 tons be taken it will only
give employment to a certain number,
whereas if 500 tons be taken, all the
hands could be employed and no
favor shown; so we had to have the
500 tons.

I went ashore there and found
everything the very opposite to Can-
ada. The public conveyances were
drawn by bullocks, which were hitch-
ed up to two wooden runners fixed
about three feet apart, and on that
were two springs each side like rig
springs, then on that were two seats
to hold two in each seat opposite one
another, making four passengers. The
streets are all cobbled with sea boul-
ders, shaped like kidney potatoes, and
they are put so beautifully close to-
gether on edge that they make the
roads and sidewalks quite smooth and
slippery.

CHAPTER XLVII
An Unseen Enemy

I have learned from Maria that on Saturday afternoon she found Sammy lurking about the kitchen, Lady Anne explained. The servants dislike him very much and I do not permit his visits to the house. But he is very nimble, and I suppose he took advantage of my absence to climb over the wall, as he has done before.

Are you certain he cannot get in by some other way? Harry asked doubtfully.

Quite certain. Surely you do not believe Reuben Symond's ridiculous stories about that subterranean passage? It has been blocked up for centuries. It appears that he got very angry when Maria and Virginia turned him out of the kitchen, and that he told them he was going to leave Crayborne and find work in London. After he had gone they found he had stolen a watch and purse of Maria's containing about a sovereign in change.

How does that affect Reuben's death?

You say you saw him get into the train. That was on his way to London, of course. I think it is very likely that, if he saw Reuben, he would try to attack him, as he would remember he was the man who shot him. Idiots are very revengeful. Doubtless they had a struggle in the compartment, and as a result, Mr. Symonds fell or was thrust out. As to the poor creature who was with him—

One moment, Anne; Sammy cannot have been on his way to London. For I made inquiries at the booking office after I recognised him, and learned that he had taken a third-class single ticket to Bloxham, as the clerk said he had done on previous occasions.

Lady Anne looked disconcerted. I don't think he has sense enough to know the difference between London and Bloxham, she said. As far as I know, he has never seen the latter place. He comes from Salisbury, the Annings tell me. But I can understand his getting out at Bloxham when he realised what he had done.

And where is he now?

How can I tell? Very likely he is making his way back to Salisbury.

Possibly they may look for him there after the inquest, Harry observed thoughtfully.

Why do you say after the inquest?

Because it will probably end in a verdict of wilful murder against this Sammy, Harry replied.

On whose evidence?

On mine.

They cannot convict a poor half-witted creature who is not responsible for his actions, she cried passionately.

Forgive me for reminding you of it, but he was held sufficiently responsible in the eyes of the law to give evidence against a man at an inquest seven years ago.

She glanced at him in a startled fashion.

You mean Roger Clavel? she said in a very low voice. Do you really think for a moment that what Sammy said against him was not true?

I think Sammy is incapable of truth, Harry returned. A most malignant, mischievous brute, who will be only safe when confined in a criminal lunatic asylum. I mean to get him there if I can.

She remained staring at him in silence for some seconds.

Have you spoken about seeing him to anyone but me? she asked.

No. But tomorrow I must say all I know, including what I heard of the affair at Lyllyngton, when Reuben shot him.

What good will it do you to have that poor wretched being punished, Harry asked after a pause.

I shall know that he will be able to commit no more crimes, he answered promptly. Dear Anne, do not waste your precious tenderness and charity on such undeserving objects. Stephen Jackson is sufficiently object-

lonable; but this Sammy is about as much worthy of kindness as a poisonous snake. Both men are incapable of gratitude.

We do not help people because we want gratitude, she said softly. But come into the house, Harry. It is beginning to rain.

A strange gloom and depression hung over the entire household. Virginia had given vent to a thoroughly Latin outburst of grief and horror when she had heard of Mr. Symond's death, and had been almost incapable of work since that time. She had also given notice, and had so alarmed the new servant that she, too, expressed a desire to leave at the end of a month. Maria, the silent, was clearly troubled, and at the urgent request of Lady Clavel, Father Carey had been sent for, and was shut up with the old lady in the chapel for some hours during the afternoon.

The Father appeared at dinner, as Lady Anne asked him to stay. He talked to Harry about a Catholic church in New York in which he was interested, watching the young man narrowly as he answered, and then suddenly averting his eyes and staring at the tablecloth after his usual fashion. He was courteous and agreeable but in his manner he gave always the impression of keeping something back, and of having strong feelings and opinions which he was determined to conceal.

There was electricity and unrest in the air and a sense of the artificial. Lillias was so anxious to show that she cared nothing for Harry that her liveliness became flippant, and seemed to startle the priest. Lady Anne's eyes shone with an unnatural lustre, and her cheeks were flushed; so greatly excited was she that, rarely as she spoke and quietly as she moved, she started violently at the least unexpected sound.

On the third finger of her left hand she wore a magnificent ring, composed of two very large pearls, placed one above the other, and set round with diamonds. Harry had hesitated long over the purchase. Glittering stones seemed unsuitable to Lady Anne. In her elusiveness, she suggested to him an opal more strongly than any jewel; but knowing the popular prejudice about opals, he did not dare to choose them. It was much against her will that he induced her to wear the ring at all; but when at length he slipped it on her finger before they left the garden, she had suddenly looked up into his face and said with the saddest smile he had ever seen—

Do you know what pearls mean in jewel-lore, Harry? They stand for tears.

Somewhat to the surprise of Harry, Father Carey suggested that he should accompany him to the library after dinner to smoke a cigar.

It is one of my few indulgences, the priest said as the two men took their seats. I fear I do not deny myself things as much as I should, Mr. Clavel. But my health is far from good.

Harry took the opportunity of asking after his aunt, Lady Clavel.

Bodily, she is well, Father Carey replied. Mentally, she is suffering greatly. I am sorry you are not a Catholic, Mr. Clavel. The Clavels were always pillars to the Church. But without bridging your confessor, may I ask you to tell me whether the story which has got about that you are engaged to Lady Anne is true?

Perfectly true, Lady Anne is wearing the ring I gave her.

I saw the ring but I could not credit the engagement.

Why not, Father Carey?

Lady Anne's life is given to good works. Heaven has not meant that she should marry.

I really cannot understand why—

We judge what is coming by what has passed, the priest said sternly. Lucian Warne wished to marry Lady Anne; you know his end. Roger Clavel wanted her; you have heard his story. Your cousin, Reuben Symonds, who has just met a violent death, asked her to be his wife. Do you think there is nothing in these warnings?

Nothing that need affect me, Harry answered boldly. I love Lady Anne, and I hope that with me she may learn to forget the terrible past.

Past, present and future are alike in the sight of heaven, said the priest in ringing tones. I warn you, Harry Clavel, that this thing cannot be. It is impious to fight against what we call fate, but which is the will of God!

Harry heard, but did not intend to be swayed by the words.

Nevertheless, they rang in his ears as he left Leders Abbey that night for the darkness and the rain outside. He had miscalculated the time. The last train for Bloxham and for London was already in the station as he passed out of the green gate of the Abbey woods, and by running he could barely hope to catch it.

He hesitated a moment, and then let it go and turned in the direction of the Manor Farm. He did not feel inclined to walk to Bloxham in the

rain. With the disappearance of Sammy he felt convinced that his own danger had departed. Suspecting as he did that a subterranean means of communication still existed between the farm and the Abbey, he yet felt but little anxiety on his own account. At the Abbey he had, so far as he knew, no enemies. The hand he had once seen close to his papers he now believed to have been that of a woman; whether it belonged to Lady Clavel, to Maria, or to Lady Anne herself he could not tell, but he felt sure that not one of the three would do him any injury.

He therefore made his way to the farm, awoke Mrs. Anning, who had already retired to rest, by a loud ringing of the bell, and a little after eleven o'clock blew out the candles and composed himself to sleep in the giant four-post bedstead of the Witch's Room.

In a very few seconds he was asleep. An odd feeling of suffocation awoke him. He found himself suddenly fighting for breath and struggling against something which was being pressed against his mouth.

He tried to move and to thrust off the weight upon his face, which went near to stifling him, but he found that his arms were pinned to his sides. He decided that if for a second or two he feigned unconsciousness, he would have the chance of a stronger attack. But he realised with a quick shock of horror that a few seconds might mean death.

Clearly, he was in the hands of a powerful antagonist, if indeed he had only one assailant. Harry's physical strength was enormous, and he was fighting for his life, when, with a sudden wild upspringing he caught his hidden enemy by the throat over the pillow with which he was being suffocated.

The face of his would-be murderer was as smooth as that of a woman.

Circumstantial Evidence

A young wife was in tears a few mornings ago, when her mother called. When asked what was the matter she replied that her husband was out late the night before and had been to a drinking party.

What makes you think he had been to a drinking party? asked the mother. He came home, sobbed the young wife, wearing a phonograph horn for a hat.

GOOD NATURED AGAIN
Good Humor Returns With Change to Proper Food

"For many years I was a constant sufferer from indigestion and nervousness, amounting almost to prostration," writes a Western man.

"My blood was impoverished, the vision was blurred and weak, with moving spots before my eyes. This was a steady daily condition. I grew ill-tempered, and eventually got so nervous I could not keep my books posted, nor handle accounts satisfactorily. I can't describe my suffering."

"Nothing I ate agreed with me. Till one day I happened to notice Grape-Nuts in a grocery store, and bought a package out of curiosity to know what it was."

"I liked the food from the very first, eating it with cream, and now I buy it by the case and use it daily. I soon found that Grape-Nuts food was supplying brain and nerve force as nothing in the drug line ever had done or could do."

"It wasn't long before I was restored to health, comfort and happiness. Through the use of Grape-Nuts food my digestion has been restored, my nerves are steady once more, my eyesight is good again, my mental faculties are clear and acute, and I have become so good-natured that my friends are truly astonished at the change. I feel younger and better than I have for 20 years. No amount of money would induce me to surrender what I have gained through the use of Grape-Nuts food."

Now Feels Strong and Vigorous

And Fit for Any Amount of Work as the Result of Using Dr. Chase's Nerve Food.

Mr. J. Hurlbert.

It is so easy to overlook the warning given by headaches, indigestion, failing memory, lack of power to concentrate the mind, irritability and worry over little things, that many a man does not realize his danger until on the verge of breakdown.

Like the writer of the letter quoted below, you can call a halt to the wasting process and restore vim and energy to the nervous system by using Dr. Chase's Nerve Food. This great food cure has a wonderful record of cures.

Mr. J. Hurlbert, 23 James street, Brantford, Ont., writes:—"I was very much run down in health and as a consequence my nervous system was very much exhausted. Close confinement at my work, I think, brought on the trouble. I started using Dr. Chase's Nerve Food and by the time I had used up one box I felt a great improvement. The continued use of this preparation has thoroughly restored my system so that I feel strong and vigorous and fit for any amount of work. I have also used Dr. Chase's Kidney-Liver Pills and Ointment with splendid satisfaction, and recommend them at every opportunity." Professor Metchnikoff (a sneaky name to pronounce, but we are never sure about the spelling), in his latest book asserts that with sour milk and its by-products as the chief articles of diet one may defy time and the undertaker and easily live to 200 years of age or thereabouts.

A friend of ours who has given the Metchnikoff bill of fare a month's trial says that while 200 years of life on earth may sound like an attractive proposition, if he has got to stick to the sour milk dietary as a steady thing he would be perfectly willing to die at the end of the first 100.

An Impossibility

Dr. Crabbe had almost succeeded in dismissing Mrs. Gaesoway, when she stopped in the doorway, exclaiming: "Why doctor, you didn't look to see if my tongue was coated."

On Sale Everywhere.—There may be country merchants who do not keep Dr. Thomas' Electric Oil, though they are few and far between, and these may suggest that some other oil is just as good. Women's Leap to Death

Paris.—A widow about 60 years of age committed suicide by throwing herself from the first platform of the Eiffel Tower. When she had fallen seventy feet her foot caught in the ironwork of the structure, and the body hung there for over an hour before firemen were able to release it.

ACUTE PAINS IN THE BACK

Caused by Lumbago, a Form of Muscular Rheumatism.

Lumbago is sudden in its attacks and is so intensely painful that the sufferer is often unable to move, even to turn in bed or rise from a chair. The trouble chiefly occurs among working men, among whom it numbers thousands of victims. As the attacks come on quite frequently and are so torturing, this disease means much loss of time and money as well as the endurance of much suffering. No victim needs to be told that liniments, plasters and outward treatment will not cure the disease. This kind of treatment is merely a waste of time and money. The trouble is really a species of muscular rheumatism, and is due to poor blood, and can only be cured through the blood. It is for this reason that Dr. Williams' Pink Pills are so successful in curing this trouble, and those who are afflicted by it should lose no time in giving the Pills a trial. If the treatment is persisted in the disease will be driven from the system and the cure be made permanent. In substantiation Mrs. Alfred Derby, Ellettsville, Ont., says: "A few years ago I was attacked by excruciating pains in the back which the doctor called lumbago. I was not able to do a bit of work about the house, and suffered dreadfully every time I moved about. I took the doctor's medicine all winter, and used liniments, without getting any relief. In a thoroughly discouraged condition I began using Dr. Williams' Pink Pills. After using six boxes I was better and able to do all my own work, and have not been afflicted with the trouble since. I now always recommend Dr. Williams' Pink Pills to those afflicted."

These pills are sold by all medicine dealers or may be had by mail at 30 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

DEFY THE GOVERNMENT

SUFFRAGISTS GLORY IN LOSS TO CHANCELLOR OF EXCHEQUER

A Bomb Explosion Wrecks the New Residence of David Lloyd George at Walton—Suffragists Accept the Responsibility for the Outrage—Will be Martyrs.

London.—The explosion of a bomb partially wrecked a country residence in course of construction for Chancellor of the Exchequer David Lloyd George at Walton Heath, near London. The only clues obtained by the police are two broken hat-pins which were found among the wreckage. It is declared by the neighborhood that an automobile containing several women passed through the village in the early hours. No one was injured by the explosion. The house was not yet occupied. The bomb had been placed in a room of the residence which adjoins the golf links on which Lloyd George plays. The infernal machine was so powerful that the thick walls of the house were split in all directions and most of the rooms were wrecked. Two seven-pound cans of black powder also had been placed in two separate rooms, among heaps of wood shavings which had been saturated with oil and in the centre of which burning candles had been fixed.

An official of the Women's Social and Political Union told the police that the society had no knowledge of the perpetrators. General Mrs. Drummond, however, declared that the explosion was undoubtedly done by women. She exclaimed enthusiastically: I think it is grand. It was a fine act, successfully carried out and shows the determination of the women. I say: All power to all kinds of militants in the direction of harassing cabinet ministers, short of taking human life. This is the second time within a year that violent methods have been used against the residences of cabinet ministers, the first being an attempt to burn the house of Lewis Harcourt, Secretary for the Colonies, at Nineham.

Cardiff, Wales.—We have blown up the chancellor of the exchequer's house said Mrs. Emmeline Pankhurst, addressing an enthusiastic meeting of suffragettes here. The authorities need not look for the women who actually did it. I personally accept full responsibility for it.

Mrs. Pankhurst declared that if she were sent to penal servitude she would go on a hunger strike.

The government will then either have to set me free, she added, or let me die. If I drop out a hundred women are ready to take my place.

Inter-Switching Order Delayed

Ottawa.—Consideration of the railway board's draft order in regard to inter-switching rates has been postponed by the board until some future date to allow the railways and shippers to get together to consider the new draft order, which they have not had an opportunity to consider.

The proposed order provides that when a shipper sending a car over the line of one railway wished delivery at the terminals of another, the latter road, known as the short haul carrier, should perform such service for a charge, which, unless mutually agreed on by the carriers for private shippers, shall be one cent per hundred pounds with a minimum charge of \$3 for each loaded car; and for public team track, one-half cent per 100 pounds with a minimum charge of \$5 for each carload. The former order did not specify team track delivery and the chief point of objection taken by the railways to the new one is that it does.

Asserts He Has Sure Cure for Tuberculosis

Plymouth, England.—Dr. Friedrich Friedmann, who asserts he has discovered a cure for tuberculosis, gave an interview on board the Kron Princess Cecilie, on his way to America to demonstrate the value of his remedy. He said:

I feel that the first step I should take in the United States should be to treat cases of visible tuberculosis in the presence of American physicians. I could thereby accomplish the double purpose of instructing them and proving the efficacy of the use of live germs. What I mean by visible tuberculosis is fungi in the knee, for instance, which are visible to the eye. I shall be glad if any doctor or important institution in the United States will give me a chance to treat such cases.

Be Prepared to learn

London.—The Times has a letter from the Women's Christian Association of Saskatoon, pointing out in reply to a recent appeal for educated women immigrants to go west, that they must go with an open mind and be prepared to learn. The Bishop of Winchester's recent appeal seemed to show a condescending attitude towards western Canada. The present writers state that Canada is not an irreligious and uncivilized country, but is striving earnestly to attain the highest ideals.

Regrets U.S. Bill

Rome.—There has been considerable press comment here on the subject of the Burnett-Dillingham immigration bill, the clauses of which caused a painful impression. The *Giornale D'Italia* referred to the proposed legislation as an offence to human brotherhood. It added that American citizens would have been the first to regret the passage of the bill, owing to its consequences on the labor market in the United States.

TWELVE NEW ELEVATORS

Will be Built by Grain Growers Grain Company

Winnipeg.—The Grain Growers Grain Company is contemplating erection of twelve grain elevators during the year.

These elevators, it is understood, will be required in addition to those leased from the provincial government, the demand on which has been so great that further elevators are essential.

Special binning privileges in these elevators are said to have given the farmers the benefit of track prices for car load lots in elevators, and the line companies realizing that farmers are in position to ship their own wheat in order to secure their share, immediately had to offer track prices less than the ordinary charges to secure trade.

Warn Canadians Against Going to Argentina

Winnipeg.—Canadians who go to the Argentine Republic to take up land or homestead do so at great risk. Nothing but disaster has overtaken those who have gone there. This was the statement of Canadian Immigration Commissioner Bruce Walker in calling attention to a warning issued by the Dominion government against emigration there. The action of the government, explained Mr. Walker arises from the fact that Canadians who have gone to the Argentine have been reduced to penury, and the Canadian government has been obliged to bring them back at its own expense. Because it will no longer do so, the warning is issued. The latest case is that of John Oelink, who went from near Deer, Alta. He was defrauded in the Argentine of every cent he had, and the Canadian authorities had to bring him back.

GRAIN GROWERS CO. GOES IN FOR LUMBERING

Winnipeg Concern Purchases Timber Limits Near Fort George B.C.

Winnipeg.—A transaction that promises to have very far reaching effects was consummated a few days ago, whereby the Grain Growers Grain Company purchased timber limits near Fort George, B.C., comprising about 300,000,000 feet of lumber, at a price about \$1.50 per thousand feet. It is said to be the intention of the grain growers to hold this as a reserve supply with the idea of establishing lumber yards at different points in the province for the purpose of supplying farmers and settlers with lumber at reasonable prices.

SOUTH AFRICAN SCRIP

Extension for Selection Fixed For October 31, 1913

Ottawa.—The bill to be introduced into the House of Commons for the extension of the time for the selection of the South African scrip will fix the final date for October 31, 1913 positively. It is likely, however, to be confined to the original holders of the scrip as far as this concession is concerned. Hon. Dr. Roche will introduce the new measure very shortly.

Honor Titanic Here

Washington.—President Taft will present to Captain Rostron on the afternoon of March 1st at the White House, the gold Congressional medal awarded him for his heroic services as commander of the Cunard liner "Carpathia" in saving the survivors of the Titanic.

Wireless to Hudson Bay From Pas Mission

Ottawa.—The Minister of Railways has decided to have a wireless telegraph service established between Le Pas and the Hudson Bay when the harbor work is started, so that the department may be kept well informed and in close touch with the progress of the work. This will avoid the tedious method of communication by steamer to facilitate the sending of supplies when urgently needed.

England Does Not Want our Help if Not Freely Given

London.—The *Globe*, Protectionist, and the *Westminster Gazette*, Free Trade, are having a cheerful little squabble over the action of the Manitoba Grain Growers' Association. The *Globe* says the Association's opposition to naval armaments is flagrantly unpatriotic, whereupon the *Westminster Gazette* replies: Let the Association's fellow Canadians say that if they like, but the Mother Country does not want their assistance unless freely accorded.

Big Fire in Tokio

Tokio.—A great fire, which occurred in the centre of Tokio, destroyed a thousand buildings. These included several churches, the Baptist Tabernacle, the Salvation Hall, the School of Foreign Languages and several other schools. The fire burned fiercely for five hours, and troops were called out to guard the section.

German Repeals Anti-Jesuit Law

Berlin.—The Reichstag adopted by a majority made up of clericals, socialists, and three radicals, the measure repealing the anti-Jesuit law. It is considered most improbable that the Bundsrath will concur with the Reichstag in its action.

London.—Marylebone guardians have under consideration a proposal that a Band of Hope shall be established among the workhouse inmates for the encouragement of temperance.

PRESIDENT IS EXILED

HEURTA ELECTED PROVISIONAL PRESIDENT OF MEXICO

Gustavo Madero, Brother of the Deposed President, was Executed, the Barbarous Act being Ordered by Diaz Under Shelter of the Fugitive Law—Madero Escorted from Mexico City of Mexico.—General Huerta was elected provisional President by Congress at a special secret session.

Francisco Madero, deposed from the Presidency, will be exiled. Arrangements have been made for his departure from the capital for Vera Cruz. From there he will sail for some European port. Madero will be accompanied by his wife and perhaps by his father and other members of his family.

His loyal aide, Captain Montes, also will go, but in the capacity of a guard. The party will proceed to Vera Cruz under escort.

The execution of Gustavo Madero, brother of the deposed President, was a most tragic occurrence. He was subjected to the fugitive law, and was shot to death by his guards.

The members of the Cabinet and most of the other prisoners were released. Francisco Madero, Jose Suarez, Vice-President, and Frederico Garza, governor of the federal district, were the only prisoners held.

General Huerta, who has assumed the post of Governor General and General Diaz had an extended conference, after which it was announced that they were in complete accord. Later General Huerta was in conference with the American Ambassador, Henry Wilson.

Already forced to face plots, the new administration caused the arrest of General Francisco Romero.

Romero is accused of complicity with Francisco Cosío Roblo in a new revolt. The plot involves a group of rurales.

Ottawa.—The Department of External Affairs was officially informed that there had been a change of Government in Mexico, and that all the Canadians in the country were safe. There had been many enquiries from friends and relatives in Canada as to the latter.

January Labor Index

Ottawa.—The department of labor index of wholesale prices was slightly lower in January, standing at 136.2 as compared with 136.8 in December. Grains and fodders, dairy products, fruit and vegetables were lower, while animals and meats and fresh fish were upward. Winter wheat and barley were also upward. Hog products were easier. Iron and products of iron showed some advances.

Compared with January 1912, for which the index number was 133.2, a rise of 3 points is shown. The chief increases appear in the groups, animals and meats, fish, hides, leathers, boots and shoes, textiles, furs, metal and fuel with decreases in grains and fodder, dairy products, fruits, and vegetables.

The index numbers are percentages of the averages during the decade 1899-1909. They are based on 202 commodities representative of Canadian production and consumption.

In retail prices the feature of the month was the easier market for dairy products, eggs declining in many cities, and butter much easier, while milk declined in two cities. Some other lines of food were lower also. A year ago at this time meats, dairy products and potatoes were strongly upward.

Industrial Accidents

Ottawa.—There were 491 industrial accidents recorded by the department of labor during January, of them 100 were fatal and 391 received serious injuries. Compared with the record for December the above is an increase of three fatal and 24 non-fatal accidents. Figures for January 1912 were 103 fatal and 531 non-fatal. The greatest number of fatalities were recorded under the headings of mining and railway service, there being 15 workmen killed in the mining industry and 43 in railway service. Of the non-fatal accidents the greatest number occurred in the steam railway service and the metal trades, the figures having respectively 114 and 87. Two fatal and 28 non-fatal accidents occurred to workmen in the building trades.

Record Immigration Party

Winnipeg.—Six hundred and twenty five passengers from the Empress of Britain arrived in Winnipeg recently. This is not only by far the largest party which has entered the country since the dawn of 1913, but it also outnumbers any one party that has found its way into Canada so early in the year, since the immigration movement into the country first commenced. In fact it is a record. These new arrivals include a number of first class farm hands, who have come out here prepared to start work on the land, directly the season opens. Ninety-five per cent. are Britishers.

Is Allowed In

New York.—Edward F. Mylius, the English journalist convicted of libelling King George V. of England, and detained by the immigration authorities at Ellis Island received permission from Federal Judge Cox to enter the United States. Judge Cox sustained a writ of habeas corpus.

London.—King George has donated \$1,000 to the funds being raised for a memorial to Captain Robert F. Scott and his four companions who died on the expedition to the south pole. The sum amounts to \$100,000.

STATISTICS ABOUT CANADIAN PHONES

Annual Report Submitted at Ottawa Shows 683 Companies at End of Year

Ottawa.—Facts about telephone companies in Canada are set forth in the annual report of the subject by the controller of statistics, tabled in the commons. The number at the end of the year was 683, an increase of 146.

In Manitoba and Alberta the systems are owned by the provinces, while Saskatchewan is fast absorbing them. Ontario has 369 telephone companies; Quebec 62; New Brunswick, 17; Nova Scotia, 12; Alberta 3; Saskatchewan, 206; Manitoba, 3; British Columbia, 10 and Prince Edward Island, 1. The aggregate capital is \$46,276,851, an increase of \$6,232,869 over last year. The capital is equal to \$124.75 per telephone. The cost of real property is placed at \$56,887,799, Quebec heading the list with \$27,480,159. This is due particularly to the Bell Telephone Company being credited to Quebec, the head office being in Montreal, though its lines are all over the country. Gross earnings of all companies in the year were \$12,274,620; operating expenses \$9,094,688 and net earnings \$3,179,937. The operating expenses were 74 per cent. of the gross.

A total of 370,884 telephones are in use in Canada, equal to one telephone for every eight of population. Employees number 12,873 and salaries last year totalled \$2,659,641.

Profit in Cherries

Elko, B.C.—Cherries, according to J. T. Bealby, owner of a commercial orchard on Kootenay Lake, are coming to be the most profitable product of the fruit growing industry, although involving possibly the most labor. Mr. Bealby's cherry orchards show a gross production of from \$1,200 to \$1,500 per acre. He states that one tree on his ranch has given an average of \$70 worth of fruit every year for several years, and that \$25 is a fair average for the entire acreage. After the first four years merely ordinary care is required, with a little spraying and trimming. Apples, he says, give an average return of \$250 per acre gross. Mr. Bealby purchased his ranch of 25 acres about six years ago, and has made a marked success from the start.

G. T. P. Entrance to Swift Current

Swift Current, Sask.—It is learned from reliable sources that the recent decision of the Grand Trunk Pacific to divert its Moose Jaw line into Swift Current was influenced largely by the wish of the officials to start work on the Swift Current terminals at an early date, and to avoid the inconvenience and expense of bringing the necessary materials over the C.P.R. Although the construction from Watrous will go right ahead, it is calculated that according to the new plans the steel can be laid into Swift Current at least twelve months ahead of the other line, after which it will be possible to work both ways. The present expectation is that the G.T.P. will be in Swift Current by the end of this year.

Soo Line to Operate Through Cardston

Cardston, Alta.—The announcement of the coming of the Soo Line to Cardston in the near future is acting as a decided stimulus to local business conditions, and real estate men are preparing for an active spring market. The Soo Line has had six locating crews in the field for months past, these now having worked far west into Montana where an enormous territory will be opened up for direct connection with the Twin Cities. It is the intention to strike the Crow's Nest Line of the Canadian Pacific near Burns, Alberta. This means that the new line will enter Alberta at a point nine miles west of Coats, whence it will run directly to Cardston.

British Naval League Extends Thanks to Canada

London.—At a meeting of the Navy League a resolution was passed cordially congratulating the Canadian government and the Malay States for their public spirited contributions to the empire's needs and thanking the peoples of both countries for their loyalty.

The league regretted the failure of the admiralty to fulfill its expressed intention of maintaining the sixty per cent margin of superiority over Germany and called upon the government to secure the laying down of six ships this year over and above those granted by the dominions.

Women Ask Right to Homestead as Men do Now

Ottawa.—The Minister of the Interior is being overwhelmed with petitions, resolutions, and letters from all kinds of women's organizations in the west regarding suffragettes to mothers' clubs, asking that women be given the right to take up homesteads on the same basis as men. The requests of the women are also backed up by the boards of trade in some localities. Owing to the pressure of business it is doubtful if anything will be done in this regard this session.

U.S. and France

Washington.—The senate ratified a supplementary treaty with France, extending to 1908 the operation of the present arbitration treaty between that nation and the U.S. A general treaty with foreign nations, covering sanitary regulations for the handling of epidemics, such as plague, yellow fever and cholera, was also ratified.

THE SUNDAY SCHOOL

LESSON IX.—FIRST QUARTER FOR MARCH 2, 1913

Text of the Lesson, Gen. xv., 5-18. Memory Verses, 5, 6—Golden Text, Heb. x, 23—Commentary Prepared by Rev. D. M. Stearns.

We cannot think of omitting the first verse of this chapter, and its first fear not and word of the Lord, and shield and reward, truly a most wonderful verse. This is another visit of the Lord to Abram for in verse 2 we see Abram talking to Him. After the great victory over the four kings no doubt the devil suggested to Abram that they would regather their forces and make trouble for him; hence the Lord's: Fear not; I am thy shield.

The devil would not be slow to tell him how foolish he had been in turning his back upon the goods of Sodom, and therefore the Lord's: I am thy exceeding great reward. It is our privilege to find our all in God and to remember Ps. lxxiv, 11. Abram seems to waver concerning the promised seed and to think that Eliezer might be his heir, but the Lord assured him that his own child would be his heir and directing him to look up at the stars, said: So shall thy seed be (verse 5). Then we have for the first time two other words: believed, and righteousness (verse 6), and this verse is repeated three times in the New Testament (Rom. iv, 3; Gal. iii, 6; Jas. ii, 23). The righteousness necessary to enable us to stand before God has been provided by Him in Christ, and nothing short of that perfect righteousness will answer. It becomes ours when we say amen to God and heartily accept that which He has provided, but many prefer their own way, as Cain did, like those described in Rom. x, 3, 4.

This verse 6 in our lesson is literally: Abram believed Jehovah, and this should be our attitude to God always—perfect accord with Him. See the comment in Rom. iv, 1-12, and note carefully that the only way is by faith without any works of ours.

The works come afterward as an evidence of our faith, but both in salvation and in service the Lord does all, for it is God who worketh, and the principle holds at all times and in all things. Except the Lord build the house, they labor in vain that build it (Ps. cxviii, 1).

In answer to Abram's question, Lord God, whereby shall I know? (verse 8), which sounds like anything but faith after he had been so plainly told, he is directed to a representation of all sacrifice (verse 9). All true sacrifice from Gen. xii, 21, onward points to the great sacrifice of the Son of God on Golgotha, and it is because of that God does all things for us. Sin must be dealt with, and God dealt with sin on the cross, and not having spared His own Son, He now gives us in Him all things freely (Rom. viii, 32).

From the statement in verse 11 concerning Abram keeping the birds away from the sacrifice we are led to think of Matt. xiii, 4-19, where the fowls represent the wicked one. He hates the sacrifice of Christ and will do his utmost to keep us from trusting in it or benefiting by it. We must persistently resist him that he may flee from us (Jas. iv, 7). How can we know our sins are forgiven or that we shall inherit the kingdom and the glory? Let your heart reply because the Son of God loved me and gave Himself for me. (Gal. ii, 20), and I put all my trust in His great sacrifice for my sins and heartily receive Him as my Saviour.

Abram was told that his descendants would be afflicted in a strange land for 400 years and then delivered (verses 13, 14). See the literal fulfillment of this in Ex. xii, 40, 41, and compare another literal fulfillment of a prediction in Kings xiii, 2; 11 Kings, xiii, 15-17.

Abram's posterity had to wait till the iniquity of the Amorites became full (verse 16), and the reason why the Lord Jesus does not return to set up His kingdom of peace and righteousness on this earth is because the world is not yet bad enough. Iniquity must come to a head in the person of the antichrist. The smoking furnace and the burning lamp of verse 17 suggest the presence of the Lord with them in their afflictions. In all their affliction He was afflicted, and the angel of His presence saved them.

Chapter xvi tells of Sarai's suggestion, which was not of God, but to which Abram listened, and consequently had no new revelation from God for thirteen years. Compare xvi, 16, and xvi, 1. Yet here we have the first angel story in the Bible, the name of the first man who was mentioned by name before he was born, the beautiful and comforting words. Thou God seest me, and the name given to the well, the well of Him that liveth and seeth me.

The sin of man always seems to make more manifest the grace of God. In chapter xvii, 1, we find God revealing Himself to Abram as El-shaddai, the Almighty God, the Mighty God, who is all sufficient, and the exhortation to walk before God and be sincere. In xvi, 5, Abram's name is changed to Abraham, Jehovah putting the principal letter of his own name in Abram's name. Sarai's name is also changed to Sarah, and Isaac is mentioned by name before his birth (xvii, 15-19). Circumcision is given as a seal of the faith which Abram had, yet being uncircumcised.

Prince Albert, Sask.—Elaborate preparations are being gotten under way for the entertainment of delegates for the Saskatchewan Association of Rural Municipalities which meets here March 5, 6, and 7.

The Easy Laxative

In justice to yourself you should try Rexall Orderlies,---your
money back if you don't like them. They are a candy con-
fection that really do give easy relief from constipation.

Good health is largely dependent
upon the bowels. When they become
sluggish the waste material that is
thrown off by the system accumu-
lates. This condition generates
poisons which circulate throughout
the body, tending to create coated
tongue, bad breath, headache, dull
brain action, nervousness, biliousness
and other annoyances.

Avoid harsh cathartics and physics.
They give but temporary relief.
They often aggravate the real trouble.
They are particularly bad for chil-
dren, delicate or aged persons.

Rexall Orderlies

Come in tablet form, taste just like
candy and are noted for their easy,
soothing action upon the bowels.
They don't purge, gripe, cause
nausea, looseness, nor the inconve-
niences attendant upon the use of
purgatives. Their action is so pleas-
ant that the taking of Rexall Order-
lies almost becomes a desire instead
of a duty.

Children like Rexall Orderlies.
They are ideal for aged or delicate

It is noticeable in a great many places around town that the
sidewalks have not been kept clear of snow and consequently when
a soft spell comes these sidewalks are not fit to walk on, and then
when it freezes up again they are dangerous to life and limb. No
doubt the matter only needs mentioning to those living in town and
as far as they are concerned it will be attended to, but the town
Council, or whoever is responsible to them, should see that the side-
walks abutting on property owned by people living out of town is
cleared of snow and the cost charged against the property as the
by-law calls for. If there is snow on your sidewalk, the first
chance you have when the weather becomes milder clean it off and
help to make the town look that much cleaner and safer.

COMPLAINTS are being made in east Didsbury that pigs are
being kept within a short distance of dwelling houses. Perhaps
these parties do not know that they are breaking the health laws
and that they are liable to a fine of \$50 or two months in jail. This
matter has been brought before the attention of the proper author-
ities and no doubt will be looked after. It is to be hoped that
every person in the town will make arrangements just as soon as
the warmer weather comes to have their manure piles
and back yards cleaned up for their own as well as for their neigh-
bor's good. Any of us would feel extremely bad this spring if
through our negligence in this matter an epidemic of fevers was to
break out and cause untold sorrow and a great expense through the
filthy state of laneways and back yards. We are all responsible to
a great extent for the health of the town, and it is up to us to see
that no serious trouble is caused by our negligence.

An Interesting Trip

The following interesting letter was
sent to us lately, and as a great many
of our readers know the gentleman
who wrote it, we take the liberty of
publishing it. From Didsbury Mr.
Wright went to Vancouver and from
there took passage for New Zealand,
from which place Mr. Wright de-
scribes his trip home to England.

Belle Vue, Kingston by Sea,
Sussex, Eng.

Dear Mr. Osmond:

Well, Sir, I guess I've had a pretty
good spin 'round after I left Dids-
bury, and I'm very much afraid I
don't know very much now. After
reaching New Zealand I was a bit un-
decided whether to go home via
Suez or Cape Horn. Having had,
from 1876 to 1879, experiences of the
Cape of Good Hope and Suez canal
route, I thought I might as well ex-
perience the "dreaded" Cape Horn
route. As you know it is invariably
pretty rough around those quarters,
so, being a pretty good sailor myself,
I thought I'd just chance the ducks
and go that way. Our ship, the S. S.
Nairnshire of the Federal Holder line,
was a 10,000 ton cargo boat, gener-
ally known as a cargo or "tramp"
boat. We started from Littleton on
the 30th of July, 1912, and reached
Avonmouth, Eng., on Sept. 18th,
1912, making 52 days of it.

Here I give a little problem for your
son to solve. Of course it is easy
enough for you, but let him find it out
himself. When I started from Van-
couver on May 15, 1912, we steered a
south by west course. On the 30th of
May we came to the 180 W. degree of
longitude. Next day, after passing
the 180th degree, we skipped the 31st
of May and began the 1st of June, so
that I lost a day of my existence in
May, 1912. That of course is clear to
you. Now, then, on our way from
Lyttleton to Cape Horn we had July
30, July 31, August 1, August 2,
August 3, and so on, but note, we had
two days of August 1st. Let him see

how that was. It is of course quite
clear, as we come from the 180th de-
gree east to the 180th degree west, so
to get the east of Greenwich and the
west of Greenwich times we had to
have two firsts of August. It will
amuse him by looking up his map of
the world to prove my words.

On the morning of our leaving New
Zealand the Lyttleton Times news-
paper was bought and a list of the
cargo of our ship was therein pub-
lished, a copy of which herewith
please find enclosed. I showed it to
our chief officer on our way home and
he said it was perfectly correct, and,
to make the storage capacity more
amazing he said they had 24,000 feet
spare room for cargo, but could not
get it, so, not to let the ship go away
partly loaded, the captain took in an
extra quantity of coal to save having
to coal at Monte Video.

From New Zealand we went right
up to Las Palamos, the chief town of
the Grand Canary Isles, but, owing to
a coal strike there among the Span-
iards we could not get any. The
captain then wired on to Maderia
(Funchau) and there he thought 300
tons would be enough to run him
home, but no, he either had to have
500 tons or none at all, as the Portu-
guese, being a bit stomachy, said if
only 300 tons be taken it will only
give employment to a certain number,
whereas if 500 tons be taken, all the
hands could be employed and no
favor shown; so we had to have the
500 tons.

I went ashore there and found
everything the very opposite to Can-
ada. The public conveyances were
drawn by bullocks, which were hitch-
ed up to two wooden runners fixed
about three feet apart, and on that
were two springs each side like rig
springs, then on that were two seats
to hold two in each seat opposite one
another, making four passengers. The
streets are all cobbled with sea boul-
ders, shaped like kidney potatoes, and
they are put so beautifully close to-
gether on edge that they make the
roads and sidewalks quite smooth and
slippery.

AFTER EFFECTS OF LONG ILLNESS

SPEEDILY VANISH WHEN YOU USE DODD'S KIDNEY PILLS

Loren G. Ladd only found complete relief after using the Great Canadian Kidney Remedy.

Ladd's Mills, Stanstead Co., Que. (Special).—That the seeds of disease left in the body after an illness are sure to cause trouble is the experience of Loren G. Ladd, a well known young man in this community. Mr. Ladd has also learned that those seeds can be cleared out of the body and perfect health restored by Dodd's Kidney Pills.

"At the age of six I had Scarlet Fever," Mr. Ladd states. "At twelve I had Typhoid Fever, and at fourteen I had Measles. About a year later I began to be troubled by swellings of the face, feet and hands. The doctor told me I had Kidney trouble. He gave me medicine but the swellings continued to come at intervals of a week to a month."

"Two years ago one box of Dodd's Kidney Pills stopped the swellings. Last winter the swellings returned and again I was cured by using Dodd's Kidney Pills."

Healthy Kidneys strain the seeds of disease out of the blood. Dodd's Kidney Pills make healthy Kidneys.

Ah, Giles, said a curate to an old rustic whom he met on his way to church Sunday morning, how beautiful it is to hear those silver tones pealing out from the belfry!

Eh? replied Giles, who was deaf. I say how beautiful it is, shouted the curate, to hear those silver tones pealing out from the belfry!

I can't hear a word you say, said Giles, then blessed bells be making such a terrible din.

Terrier Kills Two Otters

London.—A small wire-haired terrier belonging to Mr. Lawrence, of Streatham, Berks, displayed rare pluck in killing two full-grown otters. The dog received no injury.

Oh, papa, she said, with a blush, young Mr. Chestnut who owns so many coal mines in the Midlands is coming again this evening, and he wants to see you on some important business.

All right, my dear, responded the old man, chucking her playfully under the chin. I know what the young man wants.

That evening Mr. Chestnut came to the point at once.

Mr. Hendricks, he said boldly. I want to ask you if you have laid in your winter stock of coal?

KING VICTOR REVIEWS WAR-SCARRED TROOPS

Regiments Home From Tripoli Get Enthusiastic Reception in Rome

Rome.—Recently King Victor Emmanuel reviewed detachments of the troops which participated in the war against Turkey, and afterward accompanied them on their march through the principal streets of the capital.

The king, who was accompanied by Queen Elena and his children, the Duke d'Aosta and other princes of the house of Savoy, first inspected the troops in the Piazza Indipendenza.

His majesty then placed himself at the head of the column and led his soldiers who were accompanied by the regimental colors, through the Via Nazionale to the enormous new statue of Victor Emmanuel II, called the altar of the fatherland.

King Victor took up his position beside the statue of his grandfather and presented a medal for each regimental standard. The ceremony was the most imposing of the kind that has been witnessed since Rome became the capital of the kingdom.

The streets were crowded with enthusiastic spectators, who cheered the troops and little Prince Humbert.

How old is your baby brother? asked small Fred of a playmate.

One year old, replied Johnny. Huh! exclaimed Fred. I've got a dog a year old and he can walk twice as well as that kid can.

Well, he ought to, replied Johnny. He's got twice as many legs.

Paradise for Barbers

Brussels.—The chancellor of the Belgian legation at Pekin has written to the mayor of Brussels requesting him to induce a number of Belgian barbers to emigrate to China, where owing to the suppression of the pig-tail, a fortune awaits them in gratifying the Celestials' passion for the western style of hair-dressing.

"SLIPPING FOALS"

Or abortion, in times of some form of distemper among your brood mares can be stopped and other mares prevented from losing colts by using "SPOHNS." It cleans the whole body from germs of disease, tones up the action of all organs and does not "physic." Give it to mares in foal or out, at any time, for it is absolutely safe at all times for all horses, at all ages and under all conditions. It is well to give the CURE several weeks before foaling time. Also safe for the baby colt. All druggists.

It's perfectly disgraceful! she exclaimed.

What's the matter? enquired her husband.

Here's a description of a woman who gets up in public and declares herself an anarchist.

Well, was the rejoinder, maybe it's just as well. I would like to see women crowd the males out of the anarchist business. When they throw bombs they wouldn't be so likely to hit anybody.

Group of hoboes waiting for their coffee to boil in a tomato can were telling their hard luck experiences.

I've had worse luck than anybody, said one of them, challengingly, after listening to the others tale of woe. Once I had to sleep from Wilkesbarre to Perth Amboy on top of a flat car loaded with hard coal.

And what do you think? he went on. Every car on the next train that pulled in from the same direction was loaded with soft coal.

If horses are not worked

regularly during the winter, they need the

special effects of INTERNATIONAL

STOCK FOOD, to tone up the digestive

organs, enable them to get all the good out

"I have fed INTERNATIONAL STOCK FOOD for many years. I always have a 25 pound pail standing in my barn. I bought a pair of three year old colts and they were so worked down that my neighbors said I had been beat. When I bought the colts, they weighed 200 lbs. I ploughed 25 acres and they weighed 260—then I harvested 163 acres and threshed and hauled one carload to town, 6 miles, I weighed them again and they weighed 280, and I said "They shall weigh 300 before spring". Now, the Neighbors want to buy them but there's no chance". J. G. REMPEL.

Which kind of a culvert does your waggon cross?

DOES the road you use pass over rickety, dangerous wooden culverts, that are constantly in need of repairs and often washed away entirely? Or is it carried safely across the low places by modern, everlasting culverts? Build your

CULVERTS OF CONCRETE

which not only cannot be washed away, but actually grow stronger with age and use.

Every farmer owes it to himself to insist that the money he pays for road-taxes be spent to the best advantage.

As a ratepayer, he is entitled to the best roads that can be made with that money. When culverts are washed out, and the road rendered impassable, he not only suffers inconvenience but may also be caused financial loss by inability to get necessary supplies in time for spring planting. And at best, with wooden culverts, part of the money that should be used to make better roads must be spent every year for repairs.

Obituary

Mrs. G. A. Alden, whose death occurred on Tuesday, February 25th, was the youngest daughter of Mr. B. A. St. Clair, and was born at Red Oak, Iowa, in December, 1878, coming to Didsbury with her parents seven years ago. She was married to Mr. Geo. A. Alden in April, 1908, and she leaves, besides her husband, one little son, Strand Arlethus, aged 4 years, Mrs. A. L. Milner, east of Olds, and E. L. St. Clair, sister and brother, and Mrs. Frulling, a step-sister, who lives in the Didsbury district.

Mrs. Alden was of a quiet, loving disposition, and while she has been ailing for about four months her death was a great shock to her father and husband and other relatives who had hopes of her recovery. The relatives will have the sympathy of the whole community in their loss.

The funeral will take place from her father's residence on Thursday afternoon. Interment in Didsbury cemetery.

who has charge of the arrangements, there will be two sessions daily and one or two evening meetings, when prominent educators will speak upon themes of timely interest to the teachers and to the public.

There will be general and sectional sessions, the latter referring to the high school and the upper and lower grade schools, the discussions relating to topics of every day life. The other meetings will deal with general educational subjects. It is probable that one or two educators of international reputation will deliver addresses. Hon. John R. Boyle, minister of education for Alberta, will be present during the sessions and discuss various matters coming under his observa-

tion as a cabinet minister.
Mr. McCaig is arranging for a suitable auditorium in which to hold the sessions and it is likely that one of the large churches will be pressed into service. There will be a series of receptions and other functions in honor of the visiting teachers.
